## Roy Savage Collection auction

One of this country's most interesting car collections will shortly go under the hammer at Mossgreen-Webb's auction to be run at the Southward Car Museum at 2.30pm on December 4.

On offer will be an extensive collection of British cars from the post-war era, as well as two outstanding German examples of Mercedes-Benz and BMW, and a Ford Model A, the only American example from the collection.

As can be expected from a collection of this calibre, every vehicle is in running condition and will display current WOF and registration stickers, ready for any new owner to drive home. To read more about each car visit [theroysavagecollection.co.nz](http://theroysavagecollection.co.nz).

1. 1969 Jaguar E-Type Series 2, 4.2 fixed-head coupé. Estimate: \$85K–\$105K
